Week 0 — Python On-Ramp: Zero → Hacker

Tonight you become a programmer. No experience required.

Hello World

```
print("Hello, Bithaven.")
```

Variables

```
handle = "ghostbyte"
print(handle)
```

Built-in Functions

Input(): input("What is your handle: ")

Functions

```
def greet(name):
print("Welcome,", name)
greet("Nova")
```

Interactive Script

See Mini Challenge Guidelines. Let's try this on our own.

You Are Now a Programmer.
